

ACCESSABILITY

Corporate Medical Advisors is committed to making accessible for all users information and resources that are available via the web. We favor the principles of usability and universal design, which will be of benefit to all users. By following these principles and incorporating techniques to ensure information and resources are accessible with assistive technologies, separate resources for disabled users should not be required.

If you have any questions or suggestions regarding the accessibility of this site, or if you come across a page or resource that does not meet your access needs, please contact us by using the contact link on our website, ensuring you quote the urls of the pages concerned.

All pages on the site aim to incorporate good navigation. Please note:

- Breadcrumbs were added to the Case Examples and the Why CMA sections only.
- Global navigation was added in the header on all pages.
